My portfolio

I am a web developer with experience in HTML, CSS, JavaScript ,React js and Mysql.

Hire me

About me

Hi, my name is John Doe.I have a knack for problem-solving, and I'm really excited for this internship. I was the type of person who loved learning something new every day. I also have excellent designing and poster-making skills, and I'm skilled in video editing. I recently completed a web development project and a full stack development project for a bike information app that will help me hone my skills for employment in the future

Resume

Here is my resume:

Portfolio page :

A portfolio page is a webpage that showcases a person's skills, experience, and accomplishments to potential employers or clients. It typically includes a brief introduction, a list of projects or work samples, and a contact form. A portfolio page can be created using HTML, CSS, and JavaScript, and can be designed to be visually appealing and interactive. Some essential sections of a portfolio page include a hero section, about me section, projects section, and contact section. There are many resources available online that provide step-by-step instructions on how to create a portfolio page using HTML, CSS, and JavaScript.
